Projects

LUSIP 2016

As part of Technical Team of LUSIP 2016. I made site for Summer Internship program of our college. Students can apply to different research projects under faculty of our college

Faculty Portal 2016

A Portal that can be used to put up projects for student to apply on later. Used PHP and My-SQL in the Backend.

Social Networking Site 2015

Made a Social Networking Site using Java Server Pages and DB2 for backend and HTML5, CSS3 for Front-End. The users could register themselves, message each other or Ask and Answer questions on forum.
